

# Backend Developer

## About VEELIX IT-Solutions GmbH

We are a young IT service provider who specializes in the development of holistic, digital platform solutions. In the family-run company, we place great value on sustainability, responsibility, innovation and creativity.

## About VEELIX-Software

VEELIX is a SaaS platform on which all processes of an education provider (administration, teaching, communication) are mapped in one single system. With VEELIX it is possible to learn individually, cooperatively, flexibly, establish cooperations, and manage data securely. We want VEELIX to be a holistic educational platform that creates unhindered access to a wide variety of education. To do this, we implement state-of-the-art technologies for features like Voice/Streaming, Exams, Chat, Scheduling, Cloud Storage, etc.

## Knowledge and Skills

- 3+ years experience developing enterprise software or applications
- Experience with working in a team (minimum 3 engineers)
- Experience with containerization (Docker, Kubernetes)
- Experience with cloud build and deployment tools
- Experience working with cloud database services (RDS)
- Experience with gRPC and Proto buffers
- Strong problem solving and troubleshooting skills
- Strong verbal and written communication skills
- Additional experiences as follows are highly appreciated:
  - Bachelor-level degree in IT related field or equivalent professional experience
  - Experience working with cloud deployment languages (Helm charts, Tilt)
  - Experience with Ory Identity Management stack (Keto, Kratos, Oathkeeper)
  - Nice to have: experience with Video Streaming APIs

## Responsibilities

- Architect and implement cloud native applications in Cluster
- Develop backend services and APIs, largely using Go and NodeJS
- Build dynamic stream processing pipelines
- Interface with critical DevOps ecosystem tools
- Improve for scale, stability and performance, while being agile
- Collaborate cross-functionally with engineering, product & go-to-market
- Work closely with customers engineering leaders through MVP onboarding
- Writing clean, maintainable and tested code

## What we offer

Flat hierarchies are part of our corporate culture. Ideal for people who like to show initiative and personal responsibility. We are a young team and treat each other openly, respectfully, and appreciatively.

We like to promote and challenge your strengths and enable you to develop yourself further. We advocate home office and equip you with new hardware. We also believe that good work should also be valued. Therefore, we offer you an attractive salary.

**If you fit our requirements and we fit your interests please send us your CV with info on what you've worked on so far and we will contact you as soon as possible.**
